ADDRESS SERVICE

P.O. Box 36792 • Albuquerque, NM 87176

If you know of a looped facility that is not found on this list, please let us know by email at: [LoopNM@gmail.com](mailto:LoopNM@gmail.com) or by calling 505-554-7186.

*Loop New Mexico's Vision is to see that all conceivable New Mexico public venues are equipped with a hearing loop system to allow those with a hearing loss to use telecoil equipped hearing aids and CIs to hear and fully participate in events and activities without the bother and problems associated with borrowed receivers and headsets.*

*Loop New Mexico does not sell or install hearing loops, we will refer inquiries to several known professional installers.*

*Loop New Mexico (LNM) is an award winning initiative of the nonprofit Hearing Loss Association of America's Albuquerque, NM chapter. Its purpose is to raise awareness and availability of hearing loop/telecoil technology throughout the state. We provide printed material to help individuals and organizations advocate for the installation of hearing loops and LNM representatives are available to discuss the basics of the technology and its benefits to those with hearing loss through meetings with individuals or groups. We offer power point presentations that can be tailored to the specific concerns of various types of venues from churches to legislative chambers, theaters or other places where people congregate.*
